TOLEDO, LINCOLN COUNTY, OREGON, FRIDAY, AUGUST 4th, 1916

NUMBER 24

## NEWPORT

Captain C. B. Winn, U. S. Recruiting officer, and his son were in Newport on the 28 and 29 of July, trying to get men to enlist for service on the Mexican border. His son was the bugler and at intervals would play the reveille to awaken a spirit of patriotism among the people. After two days work only two persons came forward and wanted to enlist—John Edwards of Norton and Eugene Smith of Newport. It is a nice thing for young men who are foot loose to join the army as it will make men of them, the training and discipline they will receive in the army will put a young man in line for promotion and it will always be an experience that he could not get elsewhere. It will be an honor to you through life and when you grow old and cannot take care of yourself the government which you defended will take care of you. Young man, it gives you to rise in the service from a plain soldier to a commissioned officer. You will be furnished in the start with a \$40 suit of clothes. A private soldier gets \$15 per month with food, clothing and medical attention, all furnished—this is the selfish side but far above this is the patriotic side. Here you can defend the flag of the country and all the rights that go to make a free people. When your country is invaded as it may be some time, you can go to her assistance. This is the best, the finest, the freest, the most stable country the world has ever known. As a result of the various additions of territory that we have acquired since the close of the Revolutionary war in round numbers would be about 3,752,000 square miles, valued at about eighty billion dollars and a population of over 100,000,000 people. All the territory that we have acquired since we became a nation 140 years ago has been fully paid for and don't owe a cent to any people for land. Mexico at one time was a great people but for lack of education and stable government has declined until now it is one of the weakest nations of this earth. She has insulted the American flag, has come over the border and outraged and murdered American citizens and when asked to punish the guilty parties and salute this country's flag, would not do so. Instead of making them come to time then, Uncle Sam's soldiers were removed and the "greasers" thought we were afraid of them. It is easy to put out a spark but hard to stop a conflagration. President Wilson has been patient with the Mexican people and doesn't want to intervene if it is possible to keep from it. But this wobbling attitude towards Mexico makes the trouble more difficult to settle. In 1846 President Polk sent General Taylor to the Rio Grande with a few hundred Tennesseean and Missouriian troops and they soon brought old Santa Anna to time. This trouble was caused over the annexation of Texas. At that time the soldier boys crossed the continent under all kinds of hardships and they did not complain. Now they go to the border in palace cars with splendid equipment and yet it is hard to get young men to enlist. It looks as though our people had lost much of the spirit of '76 and were given over to luxury and idleness. The sterner qualities of our war spirit should be strong enough to protect us from invasion or insult.

The Salem Street Car Excursion came over Sunday with 500 passengers on board. The S. P. Company gave the trip free to the street car employees and their families. The Salem brass band came along to add cheer and pleasure by their splendid music. The band played when the boat landed, on the streets of Newport and at Nye Beach. The day was cool and calm and every body enjoyed it. They divided, some went into the rolling surf to bathe, others took a plunge into the Natatorium and others strolled on the beach hunting agates. It was a day of pleasure to all. The hotels, restaurants and ice cream parlors were well patronized.

Wednesday morning at the residence of the officiating minister, Rev. E. T. Simpson, Miss Josephine Branch and R. R. Chamberlain were united in marriage. The happy couple took the noon train for Portland to spend their honeymoon. Miss Branch is the accomplished and charming daughter of Mr. and Mrs. Branch, who lived for a long time at Yaquina and are well known. Mr. Chamberlain is an employee of the Southern Pacific, working in the bridge gang. Everybody wishes the young couple a long and happy life. Mr. and Mrs. Chamberlain will live for the present at Yaquina where they will be glad to receive their many friends. Thursday evening a lunch will be

served at the St. Stevens Club rooms on Bay Beach. This is a public gathering gotten up in the interest of the Portland West Coast Railroad. It is to stimulate and encourage the building of the road. The first \$25,000 is nearly all subscribed, the right of way secured and the company guarantees the road will be completed within four years. The procession will form on Front street promptly at 7 P. M. and march to the Bay Beach, headed by the Pickins Brass band. Good music will be furnished and a number of speeches made by distinguished citizens of the county.

## OYSTERVILLE

is not very lively these days, everybody is getting ready to fish. Jim Brown's bridge crew passed through here Saturday on their way to Yaquina.

We are in receipt of a letter from Clarence Ofstedahl who is now at Blawett, Washington, in which he states that he has a good position at that place driving a five ton Knox tractor for the Freshwater Timber Company. He also says he can't get along without the Leader.

## FIEGLES CREEK

Those who enjoyed a trip to Deer Creek recently were, Mrs. R. E. Darting and family, Eben Sawyer, who has been visiting here, Mr. Shane, Mrs. Frank Mulvany, Blanche and Percy Mulvany. We were especially interested in that locality because our creek is known on the Blue Print by that name. Thereby hangs a tale. Three or four years ago a man came from Washington and located on a claim by aid of a blue print—needless to say he visited the well known Deer Creek neighborhood but fled on land here and lost his rights eventually. Small wonder that we gaze with wrapt attention on the so called Deer Creek hills.

Chas. Lindley went to Corvallis recently for medical treatment.

More rain—Alas! for the hay. Geo. Darting and son, R. E. spent Sunday home.

Frank Mulvany is working at Blodgett.

Z. A. Kesst and son, Will, were mending roads last week.

The neighboring school district Boards are beginning to scratch their heads in an effort to hire teachers of the proper type, character, etc. The worry of hay making is not in with it. They are forewarned of the pretty shirtwaisted chit—of the love making fool—or the harder one who lives in the saddle, etc. in short any old place except the school room, books and the children's welfare. Certainly our State School Laws of Oregon are flawless if too much leeway is not allowed the careless. In my humble opinion too much stress cannot be laid upon the character of our pedagogical system. By that I do not mean simply the code laid down in the ancient decalogue, although that helps, but I mean a depth of human feeling akin to the fidelity of the dog for example. Fidelity is the key stone of all education, be it mental or moral. Not so? It has been said that the teachers profession is next to the ministry. Very truly it is if we expect to reap fruits and not taxes. The teacher who barely get through the month's duties by the skin of their teeth, seizing the precious warrant eager to cash it is exacting. Simply exacting sweat money from the taxpayers leaving the pupils weaklings because of the example placed before them. Sloth! Such a teacher is pernicious and should be treated as such. It is said that eye of the master is worth both of his hands—but must the chairman of the board keep his eye upon the teacher constantly to insure honest work? I say no, a thousand times no. Weed 'em out—weed 'em out! According to all authentic literature, there have been pernicious teachers and pernicious schools and the well beloved Dickens had a deep sense of this when he portrayed Squeers—also the Blinkers. George Eliot gave us a fine example—perhaps a little rigid—viz, Bartle Massey.

## ORTON

Arthur Bessell and family came up to Raddant's ranch Saturday evening and stopped all night, taking Mrs. Raddant to Newport Sunday morning, returning in the evening.

W. C. Orton went to Newport Sunday and returned home Monday accompanied by mother and son, Lawrence.

## SALADO

Dr. F. C. Pauli was in this vicinity last week doing some dental work for Jim Hodges' mulefoot boar.

Deacon Fisher and Governor Brown had business at Elk City last Saturday. Geo. Hodges and son, Delbert attended the Rierston sale Saturday.

A. S. Apelt and son, Charles, attended the Rierston sale.

W. B. Griffith, the rustling fruit-tree man is working with J. A. Hodges at the Rush Spring Ranch.

W. B. Mulkey of Harlan was a Salado visitor last week.

Dell Hodges was a county seat visitor last week.

Whoop er up, you bet we want that bridge. We need a small bridge at the Scarth place this winter for some one is liable to get drowned in trying to swim the Big Elk River there.

## CHURCH NOTES

Sermon topics for next Sunday at the M. E. Church are: Morning Service "Whither are we drifting"; Evening Service, "Doubters" and Sunday School at 10 o'clock A. M.

Choir practice every Friday at 7:45 P. M.

Regular meeting of Ladies Aid Society will be held in the Church parlors Tuesday, August 8th, at 2 o'clock.

The Ice Cream Social given Wednesday of this week was a great success, receipts were nearly \$25. Much credit is due the ladies who participated in making it such a success.

Ten gallons of ice cream were ordered and more could have been sold had it been on hand.
